

HOW IT WORKS

- Reduces Harmful Emissions
- Boosts Power & Performance
- Cleans Carbon Deposits
- Improves Fuel Stability
- Improves Fuel Burn
- Improves Mileage

GOVVI Fuel Boosting Tablets

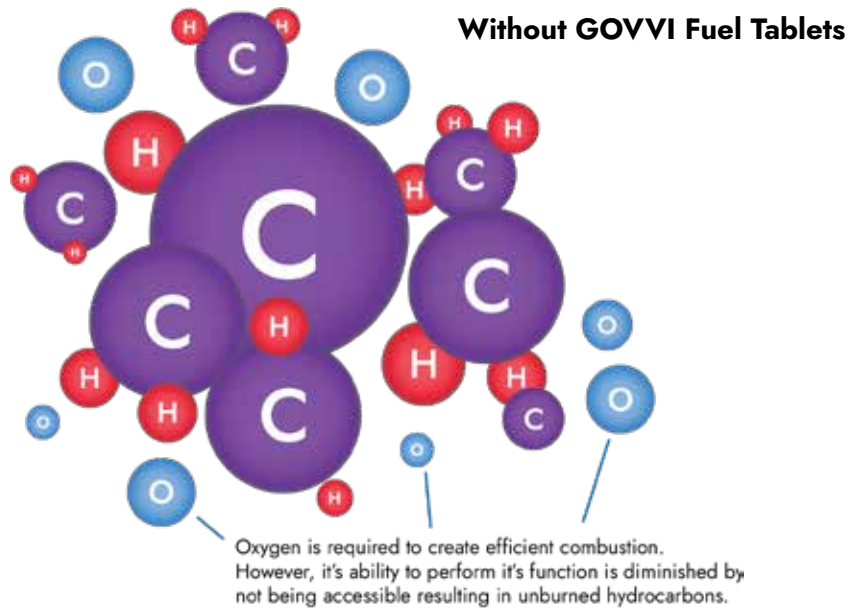

One package contains five tablets.

One tablet treats 15 to 20 gallons of fuel.

The Problem

The combustion of fuel inside your engine is an inefficient process that leaves behind unburned or partially burned byproducts such as carbon, nitrogen, oxygen, hydrocarbons, and sulfur.

This is primarily due to the formation of polarized fuel clusters that limit the exposure of the molecules to oxygen. Fuel clusters prevent a clean burn because they prevent fuel oxygenation. In order to burn, fuel molecules must have exposure to oxygen. This lack of exposure leads to poor fuel efficiency and heavy emissions.

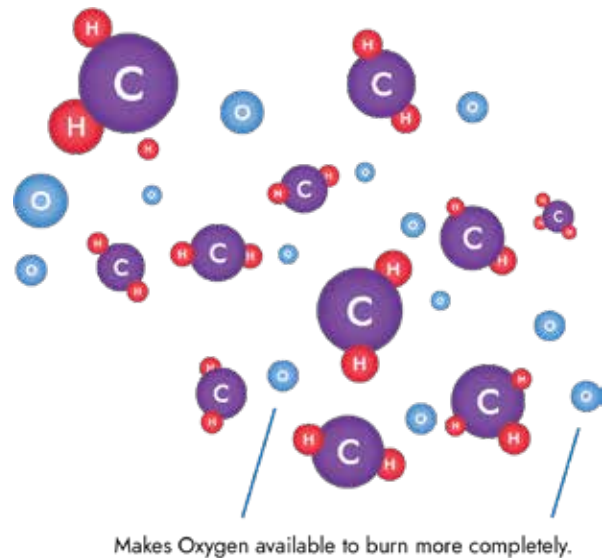

The Solution

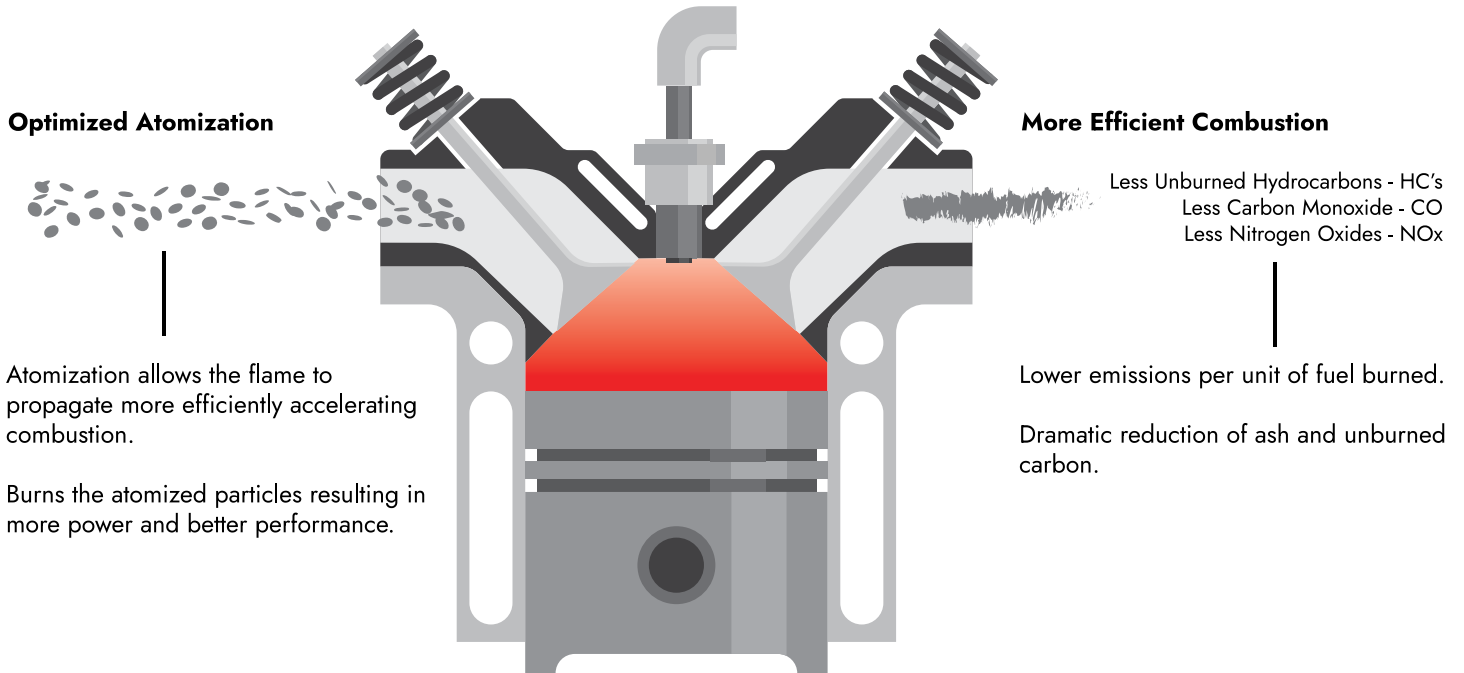

Each GOVVI tablet works in similar fashion to a catalytic converter. Just as a catalytic converter uses precious metals to combust the unburned fuel byproducts in the exhaust, each GOVVI tablet contains organometallic compounds that cause fuel to depolarize resulting in the breaking apart of fuel clusters exposing the molecules to more oxygen.

This leads to more complete combustion, and this means better gas mileage, less emissions, and less deposits in the engine.

With GOVVI Fuel Tablets

GOVVI In Your Equipment

The Best Solution On The Market

The organometallic technology used in each GOVVI Fuel Boosting Tablet won the Nobel Prize in 1973 for Chemistry.

The GOVVI tablet catalyst technology has been in operation since the summer of 2009 and is registered with the EPA (Environmental Protection Agency) in the United States.

While there are many solutions on the market that do provide benefit, **NONE** of them match the potency, purity, safety, and benefits from using GOVVI fuel catalysts.

GOVVI's fuel catalyst helps to lower the combustion temperature in the engine resulting in longer engine life, it helps to reduce carbonization and keep your engine running cleaner, it helps the gas combust more completely so you can get more MPG's or operating hours from your vehicle, it helps to lower emissions up to 85% due to more complete fuel combustion, and it **ALSO** helps to protect from the extra ethanol being added to our fuel supply currently.

Try It For Yourself

We recommend trying GOVVI Fuel Boosting Tablets for yourself. Simply drop the GOVVI fuel catalyst tablet into your gas tank before filling up, and you're on your way to saving the environment, protecting your engine, and increasing the amount of distance you can go on a tank - safely.

GOVVI

WARNING :: FOR AUTOMOTIVE USE ONLY

USAGE

Each fuel tablet treats 15-20 gallons of gas or diesel fuel.
See optimum results after 2-3 uses.

DIRECTIONS

Insert 1 fuel tablet into fuel tank at every fill up before fueling.

STORAGE

Store away from direct sunlight and heat.

WARNING

Avoid contact with eyes and skin. Do not swallow. **IF IT IS SWALLOWED:**
Do NOT induce vomiting. Contact the Poison Control Center immediately
if swallowed. **KEEP OUT OF REACH OF CHILDREN.**
